

To Whom It May Concern,

Reference: Ray Childs

I employed Mr Ray Childs as our Project Manager to construct a New Indoor Training Facility/Changerooms/Auditorium at the Morwell Recreation Reserve for the Gippsland Power Football Club in 2009.

Ray was involved in the initial planning stages right through to the construction of the project. Ray is totally professional in his organisational and administrative skills, dealings with trades people and authorities. Ray's long career and knowledge of the building trade enabled us to save many thousands of dollars off our budget for this project. He has a wealth of experience as a builder and a Project Manager and surrounds himself with people who produce work of a very high quality.

I would invite you to come and inspect our building at anytime to see the quality of construction for yourself. We truly have a Centre Of Excellence for our boys at Gippsland Power.

I would highly recommend Ray Childs as a Project Manager for your project.

If you have any queries please do not hesitate to contact me.

Regards

Peter Francis
